Profile

Results-driven data analytics professional with 5+ years of experience driving measurable business impact across large-scale enterprise environments, particularly in data-intensive domains. Proven experience in building scalable analytics solutions, implementing data governance, and translating complex business needs into data-driven strategies. Strong collaborator with cross-functional stakeholders to enhance decision-making and improve key business KPIs. Currently pursuing a Pre-Master Diploma in Data Science, focusing on advanced analytics and data-driven culture.

Work Experience

July 2026 – Present

Data Analytics Tech Lead | Eva Pharma

- Lead end-to-end analytics initiatives, from problem definition and data exploration to insight generation, implementation, and KPI/ROI measurement.
- Design, develop, and optimize Power BI dashboards, Python analytics solutions, and advanced Excel models, while driving automation initiatives that improve reporting efficiency, reduce manual effort, and enhance data accessibility.
- Conduct hypothesis-driven analysis to identify root causes and uncover opportunities and monitor business performance through KPIs to proactively recommend optimization opportunities.
- Establish and maintain high standards for data quality, governance, documentation, and reproducibility across analytics projects.
- Partner with business stakeholders to translate complex business problems into scalable analytical solutions, and collaborate closely with Data Engineering, Data Science, and AI teams to operationalize insights and AI/ML solutions.
- Mentor and coach analytics team members while fostering best practices, and present analytical findings and strategic recommendations to senior leadership to enable data-driven decision-making.

Jan 2026 – July 2026

Data Analytics Lead | Allianz

- Built and maintained automated reporting solutions and dashboards using Excel and Power BI to support business and management decision-making.
- Developed insurance KPI reports covering loss ratio, retention ratio, hit ratio, claims performance, and portfolio performance.
- Worked with business stakeholders, actuaries, product providers, and IT teams to translate reporting needs into clear KPIs, dashboards, and validation rules.
- Supported data validation, reconciliation, and reporting process improvements to enhance accuracy, consistency, and timeliness.

Nov 2024 – Jan 2026

Senior Data Analytics Engineer | GB Corp

- Developed and enforced enterprise data governance frameworks to ensure GDPR compliance, improve data security, and enhance data quality, while overseeing the development of data warehouses, processing pipelines, and a centralized analytics hub to enable scalable data models and cross-unit analytics.
- Delivered 6+ enterprise-level dashboards, including Procure-to-Pay and Sales Cycle Tracker, along with KPI dashboards and monthly performance reports to support data-driven decision-making and measurable business improvements.
- Designed and implemented data quality controls, ETL pipelines, and automated data workflows using Python, SQL, Power BI, APIs, web scraping, and Power Automate, ensuring accurate, consistent, and timely data availability.
- Led data literacy and training initiatives and collaborated cross-functionally with internal teams (IT, Finance, Marketing, Operations, Master Data, Supply Chain, and other Business Units) and external stakeholders (vendors, data providers, and technology partners) to align analytics solutions with business objectives.

Mar 2021 – Oct 2024

Data Analyst | Cairo 3A

- Designed and implemented data analysis processes using Excel and Power BI to extract insights from large datasets and identify key trends.
- Built interactive dashboards, data models, and KPIs in Power BI to enable performance tracking and deliver strategic insights for senior management.
- Collaborated closely with business stakeholders to deliver actionable insights, resolve data inconsistencies, and improve reporting accuracy and decision-making.
- Conducted hands-on training sessions on Microsoft Excel and Power BI to enhance data analysis skills and promote data-driven practices across teams.

Education

Jan 2025 – Present

Pre-Master Diploma in Data Science, Cairo University

Apr 2024 – Sep 2024

Certified Data Analyst Professional Diploma, Epsilon AI

Sep 2016 – May 2020

Bachelor of Agricultural Engineering, Cairo University

Certificates

- Alteryx Designer Cloud Core, Alteryx [03/08/2026]
- Alteryx Designer Advanced, Alteryx [10/10/2025]
- Alteryx Designer Core, Alteryx [30/09/2025]
- Certified Data Analyst, Data Camp [03/05/2025]
- Certified Power BI Data Analyst Associate, Microsoft [31/01/2025]
- Data Analysis Professional Track Nanodegree, Udacity [27/04/2022]

Skills

Analytics & BI: Power BI, Excel, DAX, Power Query, Tableau, Looker Studio

Programming & Data & Automation: SQL, BigQuery, Python, Alteryx, Power Automate, Web Scraping

Data Modeling & Engineering: ETL Processes, Database Systems, Data Warehouse Concepts

Cloud & Modern Data Platforms: Microsoft Fabric, Azure, Databricks, GCP

Advanced Analytics: Statistical Analysis & Probability, Machine Learning, Sentiment Analysis, AI, Deep Learning

Interpersonal Skills: Leadership & Mentoring, Stakeholder Communication, Presentation, Data Storytelling, Agile Project Management, Problem Solving

Languages

English: Professional Working Proficiency

Arabic: Native

Extracurricular Activities

- Data Analytics Instructor, Career 180 [13/03/2026 – 26/06/2026]
- People of Data Community Manager [01/07/2025 – Present]
- Led an online session on Introduction to Data Analysis, FA Model [29/09/2024]
- Led an online workshop on Data Analysis & Excel Pivot Tables, Quality Room [20/09/2024]
- Led an in-person workshop on Data Analysis & Excel Pivot Tables, Quality Room [06/09/2024]
- First place in the Effective Presentation Competition. (2018/2019), Faculty of Agriculture [20/04/2019]
- Organizer at 2nd JOB & INTERNSHIP FAIR at Cairo University [22/04/2018 – 23/04/2018]
- Member at the Faculty of Agriculture Students Union [2017 – 2018]
